

## Interface Design

### Login Page

#### Login Form

Users can enter their username, phone number, or email address here. The password Input Field is here for users to enter their password. The 'forgot password' button enables the user to reset the password using email or phone number.

#### Privacy Policy and User Agreement

Users are required to check a box indicating that they have read and agree to the app's privacy policy and user agreement.

#### Other Login Methods

Several icons representing alternative login methods, such as logging in through social media accounts (e.g., WeChat, Weibo) or other third-party services.

## Interface Design

### Main Page

#### Home Overview

Displays the user's total expenses for the month and the remaining budget, as well as income status.

#### Weekly Overview

Lists the main income and expense items from the past seven days, including wage income and expenses on diverse items.

#### Navigation Bar

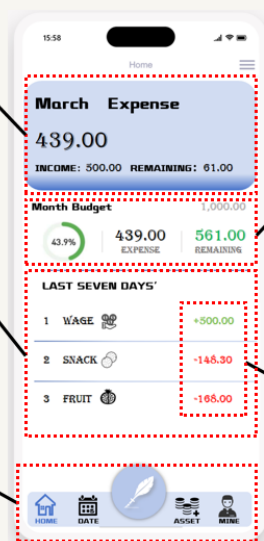

The bottom navigation bar provides quick access to different functional modules, including Home, Date, Asset, and Personal Information.

#### Monthly Budget

Shows the budget usage for the month, including expenses incurred and remaining budget, helping users plan their finances wisely.

#### Income and Expense Icons

Red and green correspond to expenses and income respectively, allowing users to more intuitively distinguish them by color.

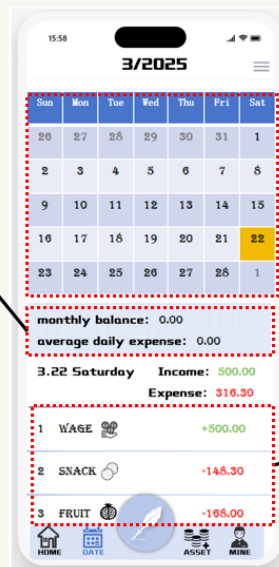

## Interface Design

### Calendar Page

#### Monthly Balance & Average Daily Expense

This section shows the selected month's Monthly Balance and Average Daily Expense.

#### Calendar Grid

This section displays a calendar, allowing users to view daily income and expenses for the selected month. By clicking on a date icon, it turns yellow, and the corresponding day's financial details are shown below.
